WOODFOREST ACCEPTANCE SOLUTIONS ®

WHAT IS TAP TO GLASS?

TAP-TO-GLASS - COMING SOON!

Transforms any NFC–enabled Android or iOS smartphone or tablet into a secure payment terminal. By eliminating the need for dedicated hardware, it enables merchants to accept contactless card and mobile wallet payments directly on their device.

This isn't just a feature, it's a platform that empowers merchants with flexibility, lower costs, and a modern way to scale payment acceptance with the Delta1st Software, owned and operated by Woodforest Acceptance Solutions.

Android available- iOS certification is pending.

WHO IS IT FOR?

Merchants:
Small businesses, mobile operators, and enterprises with distributed staff.

HOW DOES IT WORK?

Delta1st:
Utilize the Delta1st software to take payments with no terminal necessary.
Anywhere – Anytime

KEY BENEFITS:

- **Hardware-Free:** No terminals required — just a phone or tablet.
- **Cost-Effective:** Reduce upfront and ongoing device costs.
- **Mobile & Flexible:** Accept payments anywhere, anytime.
- **Feature-Rich**: Sales, tips, refunds, voids — all supported natively.

REQUIREMENTS:

- Android device (OS 8.0+) with EMV–capable NFC
- Certified Tap-to-Glass application
- Active merchant account with Woodforest Acceptance Solutions
- Internet connectivity (via Hotspot, Wi–Fi, or Cellular Data)
